SUMMARY

Seasoned and independent Front End Developer with 2+ years of experience in blending the art of design with skill of programming, I have worked with a variety of companies locally and internationally freelance platforms to deliver an immersive and engaging user experience through efficient website development, proactive feature optimization, and relentless debugging. Offering unique solutions for each client is a major strength, with effective visual design driving brand recognition and customer response and, I have good experience in communication with International clients, understanding their requirements and submitting the projects on time deadline.
Very passionate about aesthetics and UI design.
